

WILLSEN RICKY PRATAMA

Computer Science student

✉ wilsonrpratama@gmail.com 📍 Jakarta

SUMMARY

Computer Science student specializing in Database Technology at BINUS University Alam Sutera. I am driven by a passion for continuous learning and a curiosity for emerging technologies. I am quick to adapt to new challenges and value effective collaboration to solve complex problems.

EDUCATION

BINUS University Alam Sutera, 09/2023 – Present
Computer Science focusing in Database Technology

SMA Pelita Kasih, *Science Major* 07/2020 – 07/2023

LANGUAGES

Indonesian English

KEY ACADEMIC PROJECTS

FGO Servants Database

Developed a responsive character database for Fate/Grand Order players featuring real-time search and class filtering. Built the frontend using React and CSS to display detailed statistics and game data. Integrated APIs to ensure seamless data retrieval and user interaction.

IHSG Automation Pipeline

Built a fully automated ETL system that scrapes daily stock data and validates quality without manual intervention. Designed the pipeline to store data in a cloud PostgreSQL database using Supabase. Automated workflows using Python and GitHub Actions, with frontend visualization via Streamlit.

Olist E-Commerce Analysis

Created an executive dashboard to analyze key metrics like revenue by state and payment methods. Visualized business intelligence data to support strategic decision-making regarding e-commerce performance.
